Copy the full text of the prompt into your AI tool.

STEP 02

Replace the placeholders

STEP 04

Refine with follow-ups

Ask for changes: "shorter", "simpler words", "more specific to beginners", "5 more options".

SAVE TIME

Before your first prompt, tell the AI about yourself once: "I'm a **[NICHE]** creator. My audience is **[TARGET AUDIENCE]**. I sell **[PRODUCT/SERVICE]**. My tone is **[TONE]**." Most tools remember this for the rest of the conversation.

Storytelling

Structure your real experiences into content people remember — without inventing anything.

081 Raw Memory to Structured Story

PROMPT

Here is something that happened to me: [STORY]. Structure it as a short story post: a hook, the setup in 2 sentences, the problem or tension, the turning point, the lesson, and a question for the audience. Keep my details accurate and don't add events that didn't happen.

CUSTOMIZE [STORY]

Tip: The details only you know are what make a story believable — keep them in.

082 Origin Story

PROMPT

Help me write my origin story for [NICHE]. Ask me 6 questions about why I started, what I was doing before, and what I wanted to change. After I answer, write a 200-word version for Instagram and a 120-word version for my website's About page.

CUSTOMIZE [NICHE]

083 Failure Story

PROMPT

Help me write a post about a failure: [STORY]. Be honest about what went wrong and my part in it, avoid self-pity, and focus on what I do differently now. End with one practical takeaway for [TARGET AUDIENCE]. Maximum 200 words.

084 Customer Journey Story

PROMPT

Write an anonymized customer story using these details: [PASTE CONTENT]. Describe where the customer started, the moment they decided to change something, what they did, and where they are now. Make the customer the hero, not me. No invented results.

085 Then vs Now Story

PROMPT

Write a “then vs now” post about my journey in [NICHE]. Then: [STORY]. Use specific, concrete comparisons (habits, tools, mindset, results) rather than vague statements. End with one piece of advice for someone at the “then” stage.

CUSTOMIZE [NICHE] [STORY]

086 Teach with a Scenario

PROMPT

Teach [TARGET AUDIENCE] about [TOPIC] through a short, relatable scenario. Create a fictional but realistic character, describe their situation in 3 sentences, show the mistake they make, and then show the better approach. Clearly frame it as an example, not a real case.

087 Brand Values Story

PROMPT

My business values are [PASTE CONTENT]. For each value, suggest a short story or moment from running a business in [NICHE] that would show the value in action, rather than just stating it. Then write one full post based on the strongest idea.

088 Story in 5 Frames

PROMPT

Turn this moment into a 5-frame Instagram Story sequence: **[STORY]**. Each frame needs on-screen text under 15 words and a suggested visual. Frame 1 hooks, frames 2–4 tell the moment, and frame 5 shares the lesson with a question sticker.
