Building these templates in Canva

Each template gives you the structure, suggested copy and visual direction. Build it once in Canva, save it as your own template, and reuse it for months.

SETTING	RECOMMENDATION
Canvas size	Instagram post (portrait) — 1080 × 1350 px. Stories and Reels covers — 1080 × 1920 px.
Margins	Keep text at least 80 px from every edge. Show margins with File → View settings → Show margins.
Fonts	One bold headline font (for example Montserrat or Poppins) and one clean body font (for example Inter or Open Sans).
Colors	One dark, one light and one accent color. Save them in your Brand Kit or as a palette.
Text size	Headlines 60–90 pt, body text at least 32 pt so it's readable on a phone.
Consistency	Keep headlines, page numbers and your handle in the same position on every slide.

How to read each template

- **Slide structure** — a miniature of each slide and what goes on it.
- **Suggested copy** — fill-in text for each slide. Replace the **[PLACEHOLDERS]** with your details.
- **Visual recommendation** — layout and design tips specific to that format.
- **CTA** — a natural call to action that matches the template's purpose.

FASTEST WORKFLOW

Pair each template with a prompt: write the copy with File 02, the hook with File 04, then design here.

WHERE TO START

Build your three most-used templates first — usually the Educational Carousel, 3 Tips and Quote. Save them in Canva and duplicate them for every new post.

TEMPLATE 01 • SINGLE IMAGE • 1080 × 1350 PX

Quote

Share one original insight in a single, save-worthy line. Good for quieter days and for reinforcing your point of view.

Slide structure

One sentence, 20 words maximum, plus your name or handle.

Suggested copy

GRAPHIC	"[YOUR INSIGHT IN ONE SENTENCE]" — @yourhandle
EXAMPLE	"Clarity beats creativity when nobody knows what you do yet."
CAPTION	Two or three lines on why you believe this, plus one example from your work.

Visual recommendation

- Solid off-white or near-black background — nothing else competing.
- Large headline type (60–80 pt in Canva) with one key word in your accent color.
- Your handle small at the bottom, the same position every time.

CTA

Save this if you needed the reminder today.

NOTE

Use your own words. If you quote someone else, credit them by name.

TEMPLATE 02 • CAROUSEL • 5 SLIDES • 1080 × 1350 PX

3 Tips

Teach three quick, practical actions on one topic. A reliable format for beginners and for busy weeks.

Slide structure

Suggested copy

SLIDE 1	3 [TOPIC] tips I wish I'd known sooner
SLIDE 2	1. [TIP AS A VERB-FIRST HEADLINE] — [ONE-LINE EXPLANATION]
SLIDE 3	2. [TIP] — [WHY IT WORKS]
SLIDE 4	3. [TIP] — [QUICK EXAMPLE]
SLIDE 5	Which one will you try first? Save this for later.

Visual recommendation

- Large tip numbers (1, 2, 3) in your accent color, top left of each slide.
- Keep the same layout on slides 2–4 so the carousel feels designed.
- Maximum 25 words per slide.

CTA

Which tip are you trying first?

TEMPLATE 03 • CAROUSEL • 7 SLIDES • 1080 × 1350 PX

5 Mistakes

Help your audience avoid common errors. Mistake content invites self-checking, which makes people stop and read.

Slide structure

Suggested copy

SLIDE 1 5 mistakes [TARGET AUDIENCE] make with [TOPIC]

SLIDES 2-6 × [MISTAKE] / ✓ Instead: [BETTER APPROACH IN ONE SENTENCE]

SLIDE 7 Making one of these? You're not alone. Save this and fix one at a time.

Visual recommendation

- Split each mistake slide in two: muted top half for the mistake, accent bottom half for the fix.
- Use a simple × and ✓ icon — no clip-art.
- Number each slide so readers know how far they've come.

CTA

Which mistake did you recognize? Tell me in the comments.

TEMPLATE 04 • SINGLE IMAGE OR 3-SLIDE CAROUSEL • 1080 × 1350 PX

Visual recommendation

- Real checkbox squares, left-aligned, generous line spacing.
- One accent color for the checkboxes only.
- Readable from a phone screen at arm's length: minimum 32 pt in Canva.

- Label "Before" and "After" clearly in small caps.
- Don't edit the "before" to look worse than it was — audiences notice.

CTA

Want the full process? Comment "steps" and I'll share it.

- Avoid red/green only — use labels so it's accessible.
- If a fact needs a source, add it in small text at the bottom of the slide.

Which myth surprised you most?

NOTE

Fact-check every "fact" before posting. Accuracy is your reputation.

NOTE

Always get permission, and never edit a customer's words to change their meaning.

TEMPLATE 13 • CAROUSEL OR REEL • 5 FRAMES • 1080 × 1350 PX / 1080 × 1920 PX
