How to use these image prompts

These prompts work with most AI image generators, including ChatGPT, Midjourney, Adobe Firefly, Ideogram and Canva’s built-in image tools. Replace the placeholders, generate a few versions and pick the best.

The anatomy of a good image prompt

TIP	WHY IT MATTERS
Add text afterwards	AI image tools often misspell words. Generate the image without text and add your headline in Canva.
Ask for empty space	“Space on the right for text” gives you room for a headline.
Set the aspect ratio	Midjourney uses “--ar 4:5”. Other tools usually accept “vertical 4:5 format” in the prompt.
Generate, then refine	Change one thing at a time: lighting, angle or color, until it’s right.
Stay consistent	Reuse the same [STYLE] and [COLOR] words so your visuals look like one brand.

USE RESPONSIBLY

Check the terms of the image tool you use, especially for commercial use. Don’t generate real people, logos, trademarks or another artist’s distinctive style, and follow each platform’s rules on labelling AI-generated images.

REFERENCE

Placeholder glossary

Fill these in to make every image match your brand.

PLACEHOLDER	WHAT TO PUT THERE
[PRODUCT]	The item you want to show — “a ceramic coffee mug”, “a skincare serum bottle”.
[BRAND]	Your brand’s personality in a few words — “calm and natural”, “bold and playful”.
[COLOR]	A color or palette — “sage green and cream”, “deep navy with brass accents”.
[STYLE]	A visual style — “clean editorial”, “warm film photography”, “flat illustration”.
[SETTING]	Where the scene takes place — “a small home office”, “a sunlit café”.
[SUBJECT]	The main person or object — describe clothing, age range or materials generally.
[FOOD]	A dish or drink — “a bowl of ramen”, “an iced matcha latte”.
[OUTFIT]	Clothing described by type, color and material — no brand names.
[SEASON]	Spring, summer, autumn or winter — or a mood like “rainy afternoon”.
[ASPECT RATIO]	4:5 for Instagram feed, 9:16 for Stories and Reels, 1:1 for square, 16:9 for YouTube.

CATEGORY 01

Business

01 Focused Work Session

A professional working at a tidy wooden desk in [SETTING], viewed from a 45-degree angle, laptop open with an unreadable blurred screen, notebook and pen beside it, soft natural window light from the left, calm and focused mood, accents of [COLOR], [STYLE] photography, shallow depth of field, plenty of empty space on the right side for text, [ASPECT RATIO].

BEST FOR

Carousel covers, LinkedIn posts, blog headers

TIP

Asking for empty space gives you room to add a headline in Canva.

02 Strategy Whiteboard

Close-up of a whiteboard covered in hand-drawn diagrams, arrows and sticky notes in [COLOR], a hand holding a marker in the foreground, slightly out of focus, bright modern office, daylight, [STYLE] photography, no readable text, [ASPECT RATIO].

BEST FOR

Planning and strategy content

TIP

AI often produces garbled lettering, so ask for “no readable text” and add your own.

03 Small Business Owner Portrait

Environmental portrait of a small business owner standing in their [SETTING], arms relaxed, warm and confident expression, natural light, background softly blurred but recognizable, color palette inspired by [COLOR], [BRAND] mood, [STYLE] photography, [ASPECT RATIO].

BEST FOR

About posts, brand stories, website visuals

TIP

Use AI portraits as mood references or illustrations — your audience will want to see the real you.
